## Bearcats to Meet Cape Indians in Hot Campus Battle

Maryville Cagers Also Journey to  
Kirksville Tomorrow  
Night.

Within the next week the Bear-  
cat cage squad will play two games  
that may boost them into the con-  
ference leadership. Should they  
win against both Kirksville, there,  
tomorrow night and Cape Girar-  
deau, here, next Tuesday night, and  
should Warrensburg fall before  
Cape Girardeau, tonight, the 'Cats  
will gain possession of first place.

The locals are favored to win  
handily over Kirksville. In their  
first meeting this year the Bearcats  
handed the Bulldogs a 38 to 23 lick-  
ing, in spite of the fact that Capt.  
Don Sipes was out with injuries.

The Cape game should be one of  
the season's outstanding battles. On  
Jan. 18, the Indians won over the  
Bearcat hoopers 20-16 at Cape  
Girardeau. However, the Bearcats  
had traveled two days, played the  
night before, and lost the services  
of their playmaker, Sipes.

## Women Students May Attend Annual President's Dance

week by Dr. Margaret Ruth Smith,  
director of women's activities. The  
dances, however, will only be ap-  
proved for those women who at-  
tend them with escorts.

The annual dance, held on the  
birthday of President Roosevelt, will  
be staged this year in Maryville  
simultaneously in the Elks' Club  
and the Armory. Admission will be  
\$1.00 per person, and a ticket en-  
titles a person, if he cares to, to at-  
tend both dances.

Proceeds from the dances will be  
used in the fight against infantile  
paralysis, as they have been in the  
past few years of the dances.

Erection of "Pigeon-Hole" Boxes  
Comes as Result of Complaints  
Of Present Distribution

### COMMITTEE IS INVESTIGATING

In its regular weekly meeting last  
Thursday night, the College Stu-  
dent Senate voted to establish a reg-  
ular student postoffice on the cam-  
pus for the distribution of letters  
which ordinarily are placed in a  
letter basket in the East Library.

The new postoffice, which will  
consist of a group of "pigeon-hole"  
boxes arranged alphabetically, will  
probably be located along the west  
wall of the East Library. Students  
are asked to look in their boxes  
each day.

It is planned to have separate  
boxes for organizations on the cam-  
pus, as well as for organization offi-  
cers. The new system was adopted  
as a result of complaints concerning  
the inefficient handling of mail  
which comes each day for students  
in the College.

John Zuchowski, St. Joseph, pres-  
ident of the Senate, appointed Mar-  
jorie Powell, Stewartville, Bill Ma-  
loy, Redding, Ia., and Marion Rog-  
ers, Jackson, to investigate possible  
locations for the new postoffice and  
to supervise the construction of the  
boxes.

### CONCERNING ASSEMBLY CONDUCT

The Student Senate is at present carrying on a worthy campaign trying to get students in the College to abide by certain traditions concerning seating arrangement and exit regulations.

From our observance the past few assemblies, it is not the first-year students who have been causing the confusion in the auditorium, it is the upper-classmen. One student was heard to remark: "Well, the reason we don't wait on the seniors is because they are so slow in making their exit." Such is not the case. The only reason seniors are slow in making their exit is because many of the under-classmen barge out into the aisle before they are supposed to, thereby delaying the seniors' exit.

The Northwest Missourian this week comes to the students in the College with a plea that they will from now on cooperate with the Student Senate in keeping the rules and traditions of our assemblies. Remember the rules:

Seniors sit at the front of the center section.

Juniors sit immediately back of the seniors in the center section.

Sophomores sit immediately back of the juniors in the center section.

Freshmen sit in the east or right-hand section. The west section is reserved for faculty members and College high school.

*At the close of the assembly period, faculty members and seniors leave the assembly hall first. Juniors, sophomores, and freshmen remain seated until the faculty and seniors have departed, then the juniors follow, followed in order by the sophomores and then the freshmen.*

### STUDENTS' RIGHTS

Last week this newspaper carried a group of rights a student should have, but they were drawn up as "Student Privileges." They were adopted at the annual Congress of the NSFA by a special Student Privileges commission. At that same Congress, another commission, entitled Students' Rights, drew up a separate group of rights to which it thought students, as citizens in a democracy as well as students in educational institutions established under this system should be entitled.

The following ten rights were thought fundamental:

1. The maintenance on the campus of freedom of expression on any topic, and in accordance with the principles of free speech and the freedom of the press.

2. Student representation and presentation of student opinion in any formation, determination, or revision of the curriculum.

3. Student representation at faculty meetings at which matters pertaining to the interests in general are discussed.

4. The presentation by students in the classroom of a point of view different from that of the

teacher without suffering any penalty for this disagreement.

5. The presentation by students in the classroom of such evidence of their opinion as they believe necessary for others to have in their search for truth.

6. The association of students as individuals with minority or other groups on or off the campus.

7. The right of students to be tried by a jury of fellow students in a case of disciplinary charges by the faculty or administration.

8. The right of students to organize and petition.

9. Freedom of students who are of legal age to live as citizens under the regulations imposed by the civil authorities.

10. The privilege to have a democratic student government.

### OUR HOPES BRIGHTEN

Last Friday night, after a five-minute overtime period had elapsed, our Maryville Bearcats trotted off the basketball court with another M.I.A.A. basketball victory tucked under their arms. One of the largest crowds of the season witnessed one of the most exciting games on a Maryville court in several seasons.

With our win over the Bears last week, and with Warrensburg's narrow edge over Cape Girardeau, hopes for a conference place high up in the scale brightened considerably on this campus. The student body is hoping that the local squad may even garner the conference championship this year—despite the prevalence of several very outstanding teams in the M.I.A.A.

### STUDENT SENATE COOPERATION

Perhaps it is not generally known on the campus that the Student Government Association's legislative, judicial and executive body—the Student Senate—has been doing some worthwhile things for the benefit of the entire Association in the past few weeks. Feeling as it does that the legislation it passes will be for the benefit of the Association at large, the Senate hopes for a complete cooperation of all students in the execution of its actions.

One thing recently passed is the measure for the establishment of a postoffice in the Library for the distribution of student's mail. It is the plan of the Senate to have "pigeon-hole" boxes constructed and placed in a conspicuous place in the East Library, thereby doing away with the letter basket now in existence. In establishing such a postoffice, the Senate will expect the students to check up and see if they have any mail at least once each day.

As a further service to students, the Senate will forward all mail left in the boxes over one week to the students' addresses in Maryville. This, no doubt, will greatly remedy the inefficient handling of student mail in the Library.

But for the successful carrying out of such a project, the Senate will need the entire cooperation of the Association, as it will in any other project it undertakes. Students should appreciate the efforts of their governing council in legislation directed for their benefit.

To keep the Association better informed as to the workings of its Student Senate, THE NORTHWEST MISSOURIAN will each week in which there is a meeting of the council publish an account of the proceedings of the group. Let's all cooperate with the Senate!

### CAMPUS COMMENT

Lindley of the University of Kansas, one of the country's great educators, will be the guest speaker.

### SEYSTER LIKES NEW JOB IN LOS ANGELES

Mr. A. H. Cooper, instructor in the education department of the College, this week received a letter from Max Seyster of Los Angeles, Calif., a graduate in the College class of 1936.

Seyster stated that he is at present employed in the U. S. Rubber Company's tire sales department, having secured that position Dec. 15, 1937. "I like my new job fine," Seyster writes. "I hope to some time get a salesman's job. At least that is the way I'm going to direct my efforts."

In commenting on the economic conditions in California, Seyster pointed out that "conditions are at present just 'marking time.' There doesn't seem to be much business. Despite this, the out-look leans to the optimistic side."

Enclosing his dues to the Alumni Association of the College, Seyster adds that "I also hope you can replace my name on the Northwest Missourian mailing list. I surely have missed the paper the last couple of months."

### W. A. A. PREPARES FOR INTER-CLASS BATTLES

The drawings for the W. A. A., inter-class team have been made. This tournament will be played after the intramural tournament has been finished. The Seniors drew a bye in the first round. The Freshmen AA team will play the Sophomores. Freshmen B team will play the Freshmen C team in the first round. The juniors drew a bye.

It is because of the large number of freshmen girls out for basketball that three teams were made.

### W.A.A. TOURNAMENT GETS UNDER WAY

The first intramural tournament game of the W. A. A., was played January 20, at the gym. This was between Virginia Gibson, St. Joe, and Lillian Combs, Corning, teams. The game was won by Gibson with a final score of 18-12. Betty Oliver, Dearborn, scored 4 field goals and 1 free throw. Gladys Miller of St. Joe ranked high scorer for Combs' team, securing 2 field goals and 2 free throws.

Another game in the tournament was to have been played Monday, but was postponed until Thursday. The game will be between Ruth Goodspeed's team and Margaret Wurster, Lenox, teams.

The audience was very well pleased with the delightful verbal visit to France. It was a good substitute for the trip itself. After her talk, Dr. Lowery answered various questions from the audience.

During the business meeting, the play to be sponsored by the club was discussed and also the donating of a magazine subscription to the library by the club.

### Keefe-Bruner Wedding

Miss Mary Frances Bruner, daughter of Mr. and Mrs. J. D. Bruner of Brookfield, and Herbert Keefe of Trenton, formerly of Maryville, were married Sunday at Laclede, Mo.

Mrs. Keefe, a graduate of the Brookfield high school, has held a position with the Mattingly Brothers store at Brookfield the last three

years. She plans to continue in that position for a few weeks.

Mr. Keefe, the son of Mr. and Mrs. Thomas Keefe of Lansford, N. D., graduated from the Lansford high school, attended the teachers college at Minot, N. D., and also the College. He was employed by the J. C. Penney store here, having been transferred about three years ago to the company's store at Brookfield. Fifteen months ago, he was transferred as assistant manager to the store at Trenton.

## Bearcats Tie for Second Place With Springfield Victory

Maryville Leads Most of the Game; Pulls Victory From Overtime Period, 25 to 22.

The Bearcats moved into a tie for second place in the M. I. A. A., standings last Friday night when they won over the Springfield Teachers College Bears 25 to 22 in an overtime battle at the College gym.

At the end of the game the count stood 18-18. With the crowd "be-

side itself," the 'Cats won the contest on long field goals by Rogers and Salmon and a field basket and free toss by Hackett. Goals by Davis and Baker of the Bears kept their team in the running but came as an anti-climax after Bearcat counters.

Maryville led through most of the game, holding a 10 to 7 margin at the halftime. During the second period the 'Cats maintained their lead until the last minute of play with the score 18 to 15, Burrows, Bear center, flung a long field goal over the leaping Sipes to bring the visitors within one point. Seconds later Baker hit a charity toss on a foul by Rogers to knot the count at 18 all.

Dale Hackett again paced the scorers with eleven points on four field goals and three free throws. Burrows was high man for the Bears with seven points.

Donald Sipes who played only half of the game because of a foot injury, suffered an injury during the overtime period that forced him from the fray.

## The Stroller

Paul Strohm ankled down the second floor hall one day last week and decided that he would put in a telephone call to his best girl, or someone. He very boldly entered the telephone booth and very mildly closed the door so that nobody might hear what he had to say. But, to spoil the romance of the whole thing, the door locked and Paul was, as it were, caged in the booth. And to further spoil the romance of the whole thing, Jim Wells placed this little sign, "Don't feed the monkey," on the door of the booth.

The national Tri Sig treasurer beat a lot of the boys' times last week-end.

Those wedding bells are breaking up that old gang of mine. Of course, it may not be true, but it is

rumored that Bill McMullen announced last week that he had ankled down the center aisle to the altar to tie the everlasting knot. Is it true, Miss Wurster?

Susan Fleming, 'tis reported, had a very short night last Tuesday. She had retired (believe it or not) at 8 o'clock Tuesday evening, and did not awaken until a full hour and one-half later. She reported that she thought it was morning, but the only thing she couldn't figure out was why it was so dark at that time of day. Perhaps it was a sun eclipse, Sue.

John Goodlaxson, it is rumored, last week attempted to grow one of those manly looking things, known as a mustache, on his upper lip. Now, everyone who knows John knows that he is almost a blond. Anyhow, one day after his mustache had been started, he came to school with his prize looking very dark in color. When she was cross-examined by several fellows in the College, it was revealed that the black ink, which had been administered to the mustache by some of the men at John's rooming house, had been easily washed from the victim's face, but that it as very difficult to wash said ink from said mustache.

What is the matter with all of the people from Grant City. I thought they all stuck together, but now it looks as if J. K. Phipps is all alone, or is he? What about it Margaret McLaughlin?

## Read Books for Fun, Says Miss Chase

(Continued from page 1)

Chase is acquainted with, but the composite of all women she knew who had ever been to sea. Speaking of Homer Croy, she said, "He does not put real people in his books because he can't. Authors take things from life but not the real characters."

"The chief thing about art," she continued, "is not the art itself, but its effect upon the reader."

"People think they see life in terms of values and not in terms of time; that is what makes people in life subjects for art," Miss Chase stated. "Second rate books are rated as such because they are written in terms of time instead of value. Life should never be seen chronologically."

The third question Miss Chase asked was "How are authors different from other people? First," she said, "authors can write, that is, they have the ability, a gift of God, the gift for order or symmetry. Second, authors differ from other people because they believe something most people don't believe. One of writer's most common beliefs is that there is a more pleasant, beneficial life in art than there is in life. Two reasons we don't understand this life we live is due to the fact that we never get enough of it, and we never understand it if we do get enough because we as human beings are too prejudiced."

"If you want to see life as it is, you have to see it through art," said the speaker. "Through books, we get to see our lives in relationship to other lives. There is a more abundant life in books than there is in real life."

There are two ways or recipes for telling a good book, Miss Chase concluded. Does the book arouse emotions seldom found in real life, and does it increase one's capacity for understanding the infinite?
